

# DCS Compact

## All the Features Your Growing Business Needs

**Y**our telephone system is not only a key asset to your business, it's your lifeline. It connects you to current and potential clients, vendors and associates - everyone vital to your business. The Samsung DCS Compact is feature-rich, cost-effective, and efficient, providing you with the power to handle any task and the flexibility to accommodate your future growth.

The DCS Compact's features are designed to deliver desktop control and flexibility using iDCS Keypad models. Large displays make them easy to see and interactive keys make day-to-day functions more user-friendly. Whether you are trying to conference a call, forward your phone, or call an associate Samsung helps you work faster.

Adding the integrated SVMi-4E Voice Processing Platform provides your business the professional services your customers have come to expect, including a full Auto Attendant and Voicemail. The SVMi-4E offers up to 2.5 hours of message storage, supports a large number of advanced features and provides multi-language support for 9 languages.

Best of all, the DCS Compact offers built-in adaptability for future upgrades at affordable costs - so your phone system can grow as fast as your business. Adding more lines or more phones is no problem and your initial investment is protected.

The bottom line: Samsung's DCS Compact helps you communicate more efficiently and keeps your business connected. The complete solution for your growing business is Samsung's DCS Compact.
